Actos Placabla - Tango composer

DEADLINE: Friday 27th of November 2015

We invite you to submit proposals for a symposium in the framework of the International Research Network **Neurosciences France-South America - GDRI NeuroFRAMES**.

***NeuroFRAMES** is an international network for fostering the cooperation between the scientific communities of France and four South American countries (Argentina, Brazil, Chile and Uruguay) in the domains of Neuroscience, pre-clinical Neurology and Psychiatry.*

The symposium will be hosted by the **2nd FALAN Congress 2016** to be held in Buenos Aires, Argentina, in October 17 – 20, 2016 (<http://falan-ibrolarc.org/drupal/>).

***FALAN**, the Federation of Latin-American and Caribbean Neurosciences, was formed in 2013 with the aim of promoting the studying and research of neuroscience and promote links and exchanges between partners and national, regional organizations, and international related disciplines.*

Proposals are encouraged to address any timely and coherent subject of broad neuroscience interest.

Only proposals presenting a minimum of 4 speakers including 1-2 from France and at least two from South American countries involved in the Neuro-FRAMES network (Argentine, Brazil, Chile and Uruguay) will be considered.

Proposals applications should be sent by November 27th, 2015 in parallel to:
1) the NeuroFrames coordinator Dan Shulz (shulz@unic.cnrs-gif.fr) and

2) the FALAN Scientific committee through the FALAN2016 website.

In both cases please use the form proposed in the FALAN2016 website: <http://falan-ibrolarc.org/drupal/content/symposium-proposal-falan-congress-2016>

Please indicate in the Symposium proposal form the title of the symposium as follows: NeuroFrames symposium-Title.

The NeuroFrames Scientific Committee will rank the proposals based on the following criteria:

1. Interest to Neuro-Frames members
2. Innovation and novelty, including cross-disciplinary topics.
3. Reputation, country and diversity of speakers.
4. Likelihood that the symposium will generate discussion and/or stimulate fruitful interactions and cooperation between France and South-American countries in the framework of Neuro-FRAMES network.

The final acceptance of the symposia will be taken by the Scientific Committee of FALAN2016. Please note that among those accepted by the Program Committee of FALAN2016, only the highest ranked proposal will be supported financially by NeuroFrames.

Support level:

The French section of Neuro-FRAMES will fund the participation of a maximum of 2 speakers from France (flight tickets in economy class and accommodation (four nights, max 100 US dollars/night)).

Proponents are kindly asked to identify independent funding to support the participation of other speakers of the symposium.

FALAN2016 will provide the logistics (meeting room, audio, and projection) and all the facilities requested.

All participants will have to register at the FALAN2016 meeting, and are of course welcome to participate in all its activities.

Contact:

Please send any enquiry to Dan Shulz (shulz@unic.cnrs-gif.fr) specifying “symposium Neuro-FRAMES FALAN2016” in the subject.
